ABOUT OUR COMPANY

Founded In 2013

Operate In South-East Queensland

CEC Approved Solar Retailer

Over 100+ 5 Stars Google Reviews

OUR CORE VALUES

Customisation

We offer a free consultation.

We will analyse your average electricity consumption and usage behaviour. We will provide a solution for reducing your power bill. We will design a customised solar system that suits your needs.

Honesty

We will discuss every aspect and any problems we find at your property that may impact your solar system performance, such as shading over the roof.

Transparency

The prices of our residential systems are marked towards the public on our website.

No hidden cost.

NPOs PROGRAM

- Program Aims
- Service & Fee
- System Description
- Marketing Cooperate
- T&Cs Apply

PROGRAM AIMS

EverySolar 2.0 is committed to bringing renewable and clean energy to EVERY corner in the community of Brisbane. We believe we have our corporate social responsibility to improve the environment and contribute to society.

Our goal is to help NPOs reduce power bills to save more money for charity or the community.
